SONY BRAVIA

KLV-S32A10

BRAVIA™ LCD Flat Panel Television

Key Features

- 16:9 HD Resolution Panel
- High Brightness, high-contrast LCD panel
- High performance 1 chip video processor
- WEGA GATE™ - Easy Operation Guide
- 3D Digital Y/C Comb Filter
- PC Input
- HDMI™ (High Definition Multimedia Interface) Connector
- Light Sensor
- Picture Freeze

Key Technologies

7th Generation Sony® LCD Panel The Sony® BRAVIA™ S-Series uses the world's first 7th generation Sony LCD panel for truly matchless image quality and performance. Specially crafted at the S-LCD plant, these panels are produced from the world's biggest mother glass to efficiently create large, high quality panels. The 1 Mega Pixel HD display (1366 x 768) that is used offers an astounding 178 degree viewing angle, very fast response times and a spectacular contrast ratio.

1-Chip Video Processor BRAVIA™ S-Series LCD televisions use a full-digital, 1-chip video processor for crisp and clear images. Several unique picture enhancement technologies are integrated into the processor to create better gradations and details, enhance contrast, dynamically improve color, and reduce image flicker.

WEGA GATE™ User Guide Explore and navigate your Sony® BRAVIA™ television effortlessly with the WEGA GATE user guide. You can easily change your settings or access your favorite TV channels and external inputs. Simply touch the WEGA GATE button on the remote control to activate the comprehensive graphic menu. Your eyes remain on the screen instead of searching in the dark for tiny buttons on the remote control.

Light Sensor Intelligently adjusts the screen brightness to match the ambient light in a room, ensuring a comfortable viewing experience. In a dim room for example the screen automatically reduces brightness making it much more comfortable for viewing.

Freeze Function Sony's Freeze Function is a useful function that allows you to freeze one screen while the other screen continues showing the program. This comes in handy when you want to copy a recipe, phone number, etc. that flashes too quickly across your screen. Simply touch the "Freeze" button on the remote control and copy the details down at your convenience.
